

New stylish retreat for Mykonos

Major investment creates top - of - the range Mykonos Grace
Nominated for three design awards in year 1

When the Mykonos Grace Hotel opened its doors for the summer season of 2007, visitors to the Greek island of Mykonos were introduced to a new luxury boutique hotel concept for Greece and the Mediterranean.

The new hotel is the first in what will become a chain of hotels in which discerning guests are promised international quality service, the most chic accommodation and the finest food and drink.

Tributes to the 'Grace experience' by the first year's visitors, confirm that the new boutique hotel looks set to become the most stylish retreat on the island, combining traditional architecture with modern amenities.

Located on the sandy and protected Agios Stefanos beach, not far north of Mykonos Town, the hotel has already been nominated for three European Hotel Design Awards for its architecture and interior design. Selected from hundreds of candidates worldwide, the nominees include some of the world's most prestigious hotel brands (see http://www.thesleepevent.com/b_awardnominations.htm).

The Mykonos Grace promises that its guests:

...are treated to an ideal setting, combining luxurious facilities and intimate hospitality services, all designed to create a unique experience of the hotel and the island.

...indulge themselves in the comfort of stylish rooms with high-spec furnishings, spacious bathrooms all with walk - in showers, sumptuous beds and the latest in hotel technology.

...experience the famous Mykonos sunsets over the island of Delos while relaxing in their hydro-massage plunge pools, perfectly positioned on private terraces.

...ease into the stunning pool area - set against a backdrop of Aegean blue - with king sized sun - loungers and an attentive staff that ensure their total relaxation.

...discover the secrets of the 'Graces' (Greek Mythology's Goddesses of Beauty) in the hotel's 'Graces' Boutique Spa and stay fit in the 'With Good Grace' gym.

...enjoy a la Carte breakfasts and light fresh menus served throughout the day.

...wine and dine in the intimate atmosphere of the 'State of Grace' restaurant enjoying beautifully prepared food and drink using the finest ingredients.

The hotel's management and concierge staff have intimate knowledge of the island's attractions and secrets. The Mykonos Grace team helps guests to discover the best beaches and antiquities as well as the most fashionable restaurants and nightclubs.

The Mykonos Grace also makes an excellent early or late season retreat where guests can enjoy a less crowded Mykonos amid less intense heat with the bonus of experiencing the most spectacular Mykonian sunsets.

Following the early success and critical acclaim of the Mykonos Grace, the Grace Hotels group has commenced development of the Paros Grace Hotel and Residences, opening in 2008, the Santorini Grace Hotel and the Kea Grace Hotel and Residences opening in 2009/10.

The doors of the Mykonos Grace Hotel will open again in mid April 2008.
Until then... **Whatever you do, do it with grace!**
